**Opportunities and Barriers to Utility Infrastructure Efficiency  
Stakeholder Meeting #4 (of 4)**

**Wilder Foundation  
451 Lexington Pkwy N, St Paul, MN 55104**

**Monday, July 30, 2018, 8:30AM - 12:00PM**

**Meeting Goal:** This stakeholder meeting will discuss pragmatic next steps to drive EUI efficiency in Minnesota, provide resources to inform decisions on EUI efficiency investments, and develop a framework for how EUI can complement ongoing processes on grid modernization.

**8:30-9:00 Networking and Registration**

**9:00-9:15 EUI Stakeholder Project Update**

- Meeting Kickoff
  - Travis Hinck, Energy Engineer at GDS Associates

**9:15-10:00 EUI Potential Study Results**

- Magnitude of Statewide EUI Efficiency Potential
  - Travis Hinck, Energy Engineer at GDS Associates

**10:00-10:15 Strawman Proposal – Claiming EUI Energy Savings Through CIP**

- Overview of Proposed Guidance on Beyond Normal Maintenance Activities and EUI Project Review/Approval Process
  - Anthony Fryer, CIP Coordinator at the Minnesota Department of Commerce

**10:15-10:30 Coffee Break**

**10:30-11:50 Driving Supply-Side Efficiency in Minnesota**

- Minnesota's Grid Modernization Process
  - Nancy Lange, Commissioner at the Minnesota Public Utilities Commission
- Conductor Efficiency and Reducing Transmission & Distribution Losses
  - David Townley, Director of Public Affairs at CTC Global
- Conservation Voltage Reduction and Improving System Efficiency
  - Jose Medina, Vice President of Smart Grid Development at OATI

**11:50-12:00 Project Outcomes and Next Steps**
