

CEE 2021

Impact Report

A snapshot of progress and success from the past year.

CEE is a clean energy nonprofit with special expertise in energy efficiency that stretches back nearly 40 years. We discover and deploy practical energy solutions for homes, businesses, and communities.

Our 5 areas of work

Programs

We cut energy waste while improving comfort in homes, commercial buildings, and communities.

Consulting

We help building owners and entire communities achieve long-term, energy-saving solutions.

Policy

We strive for high-impact, pragmatic solutions guided by a public interest ethic.

Lending

We empower people to upgrade energy efficiency and comfort in homes and businesses.

Research

We identify and explore cost-effective, efficient technologies through field analysis, modeling, and stakeholder engagement.

56 million
kWh saved of electricity

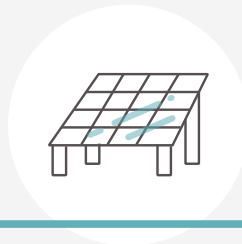

55 million
pounds of CO2 saved

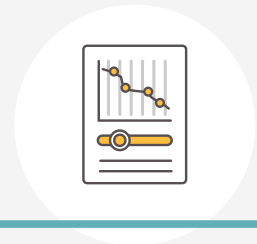

2,100
lighting and HVAC projects

8,400
homes and businesses served

\$22.7 million
in lending capital

30
active research projects

Vision

We seek a healthy, carbon-neutral economy that works for all people.

Mission

To discover and deploy the most effective energy solutions that strengthen the economy and improve the environment.

\$7.3 million
million in utility rebates

19,330
dekatherms saved

9,819
social media followers

Our values

Collaboration

For greatest impact, we seek and embrace complementary strengths and diverse points of view.

Expertise

Everyone we serve benefits from decades of field experience and robust skill sets that we grow and strengthen daily.

Science

Our pragmatic approach and credibility depend on data gained through independent research and expert analysis, with a focus on results.

Community

Everywhere we work, we rely on diverse perspectives and local wisdom for people-centered solutions tailored to serve all.

Integrity

The trust we've earned comes from our track record emphasizing ethics and honesty across our work.

Equity

Our efforts align to foster an energy economy with cost-effective, practical solutions that promote prosperity for all.
